Onwuka Rosario

Senior Frontend Developer

Hi there! My name is Rosario, and I'm an experienced senior frontend developer adept at translating design concepts into exceptional user interfaces. Proficient in HTML, CSS, JavaScript, and modern frameworks (React, Nextjs, vuejs, tailwindcss). Collaborative team player with strong problem-solving skills and a keen eye for detail. Committed to delivering high-quality, scalable web applications on time and within scope.

WORK EXPERIENCE

Senior Frontend Developer
Rethestate

01/2023 - Present   *miami,USA*

Rethestate is a platform that allows buyers and sellers to buy and sell real estate assets as NFTs on a blockchain network.

Achievements/Tasks

- Collaborated with a cross-functional team to design and implement intuitive user interfaces, resulting in a seamless user experience.
- Implemented blockchain integration for NFT creation, ownership tracking, and secure transactions, ensuring the authenticity and security of real estate NFTs.
- Collaborated with designers and backend developers to translate UI/UX designs into functional frontend components and features.
- Implemented responsive design techniques, enabling a seamless user experience across desktop, tablet, and mobile devices.
- Conducted rigorous testing and debugging to ensure the smooth functioning of the marketplace across multiple browsers and devices.
